How well did you know Mr. Stevens? = very well. Have fished with
him every summer since I knew him. Have even stayed over
night in his home. Have spent ^{many days} with him in his house boat, and am
considered one of his closest friends.

Did you ever fish with Mr. Stevens at Lavalette? yes Or were you

on the beach at times that he was also there fishing? As a rule I
fished with Mr. Stevens, or if I did not care to fish I would go down and
watch Mr. Stevens fish.

Will you describe how fishing was done at Lavalette and particularly
whether the men fished as a group or independently. Men just came
to the beach when they felt like it. As a rule there was no
organized party, or arrangements made ahead of time. They came and
stayed as they wished.

Will you state whether two or more of the fishermen kept close
together and being in one position, or whether they moved from
point to point along the beach all depending upon whether the fish
were biting? Most men fished where the fishing was best. I have seen

them change position many times in one evening.
